What does this look like to you? GCRC CHAIRMAN BUDDY BISHOP

I don't know what the politically correct term is to describe the above, but I know what my reaction to it is. It's a mess. A crazy mess.

American style politics, or perhaps better yet Virginia style politics, campaigning, persuading efforts, information efforts are and have always been a crazy mess.

And yet, some of the best people you can meet, and conversations to be had can grow out of this soil mixture.

I'd like to highlight one of the gems that has helped make this year exceptional.

(CONTINUED)

Lucy Meredith Moses is running for District I School Board. She has been a staple personality at the Republican tent for the entirety of “Early Voting”. We tell her, but she may not really know how much we deeply appreciate and admire her.

I have tried and have also failed a bit to be that tent during a midday break period from work. Whenever I can go, I always find Meredith. I decided to put together a synopsis of what she told me when I asked her about the experience.

“It’s been fun. I’ve met some very nice people. I find that in many ways it can be better than door knocking. The people who want to talk will deliberately approach our tent area. What I especially like about being at the tent is that I genuinely feel like I’m doing something good and something important. I have the strong sense that I’m doing something good.”

There is a common thread that we need to get back to basics and preserve sanity in priorities when it comes to education finance, school policy and student safety. “There is no reason that we can’t get this done. We have good schools – let’s keep it that way.”

Meredith can typically be found at the Official Republican tent at the Goochland Sports Complex. Stop by and talk with her during early voting- and let’s get her common sense on the school board for District I.

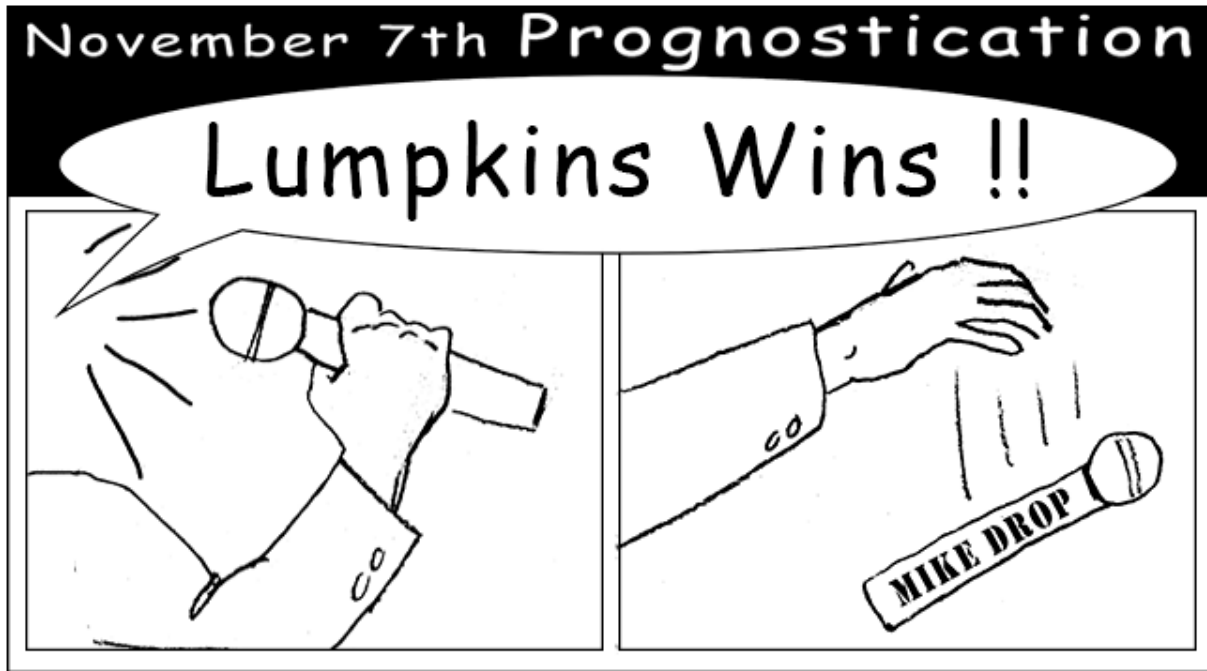

Post Election Celebration in Goochland County?

YES!! - If you have been a supporter and/or a volunteer of Goochland’s Official Republican candidates, We have a special post-election celebration event planned in Goochland County. Contact your republican candidate to get more information.

Volunteers to help us hold the House and flip the Senate

In Goochland County, The Republican Committee has been focused on campaigning and not poll watching this year. However, other areas of Virginia have a serious need to poll watchers. Ironically, this includes Goochland Precincts 402, 501, and 502.

From Matthew Majikes:
(GCRC Committee member now working for the RPV):

Volunteers are needed to help hold the house and flip the senate. Our great governor encourages early voting and a strong advertising election message. He is also asking for our help with **Election Integrity**.

The Republican Party of Virginia is focusing on several key seats so we can win the November 7th election.

Now, we are looking for Poll Watchers to maintain Election Integrity.

No prior experience is needed. This could be your first time, or this could be your second decade of Poll watching. (if you volunteered before, we are requiring everyone to receive updated Election Integrity Training. We appreciate your understanding)

After completing this zoom training, we will review and provide the needed credentialing

Please go to the following link and register! <https://www.vapollwatcher.com>

The training is being held several times as we get closer to election day, but we are indeed very close.

Not only do we need poll watchers for our 3 precincts in Goochland, (Centerville - St Matthew's United Methodist Church, Manakin - Dover Baptist Church, and Blair - St Mary's Episcopal Church) But we need help for 57 precincts nearby on Election Day. Can you help us provide Election Integrity?

Thank you in advance! We are in the homestretch - it is time for us to hold the house and flip the senate!

CONGRESSMAN GOOD INTRODUCES RESOLUTION RECOGNIZING LOGGERS

<https://good.house.gov/media/press-releases/congressman-good-introduces-resolution-recognizing-loggers>

October 12th, 2023

Today, Congressman Bob Good (VA-05) introduced a resolution honoring the hard-working loggers who harvest and replenish our nation's forests.

Forestry is Virginia's third leading industry, generating more than \$21 billion annually and employing more than 108,000 people. Virginia's loggers help supply 163 sawmills, 99 engineered wood products companies, 465 finished wood products companies, and 123 paper and packaging companies across our Commonwealth.

"Virginia loggers contribute a great deal to our economy and way of life," said **Congressman Good (VA-05)**. "We honor the hard work and dedication of loggers in Virginia and across the country and will continue working to decrease the preventable roadblocks they encounter while managing our forests and providing essential materials to the supply chain."

Events Calendar Highlights

Who Are the Dumbocrats?

THE INFAMOUS JOHN MYERS

A lot of accomplishments have been made during my lifetime by smart Americans. We entered the nuclear age, we put a man on the moon, entered the true computer age and others. For example, back in the 1950's there was a comic strip in the papers featuring a police detective named Dick Tracy. Tracy's police force was equipped with "two-way wrist radios", with which they used to communicate with each other. Of course, no such thing actually existed then so that part of the comic strip was pure fantasy. Now we have smart phones that not only can we talk to each other, but are also GPS capable, calendars, clocks, compasses and a multitude of other things. And if you opt for an Apple Watch, you can wear it on your wrist, just like Dick Tracy. The height of intelligence of the American people is limitless.

But unfortunately, the dept of stupidity of many Americans is likewise, unlimited. I realize that the technical aspects of those things mentioned above are far beyond the knowledge of most Americans, but common sense should not be. There was a time that I, along with most other Americans, admired those who graduated from some of our nation's Ivy League Colleges and Universities. For the past one hundred-plus years, these schools were acknowledged to be the best in America. Now, when I hear recent Columbia, Harvard or Yale alumni speaking about anything remotely political, I think to myself, "what an idiot". One's educational level is completely independent of his/her ability to apply reason and judgement. I know people whose formal education did not go beyond high school whom I consider smarter than many with PhD's, MD's or JD's.

There was a time when stupid people were more of an annoyance than a threat. That's because in the past, Americans were smart enough not to put stupid people in positions of authority and responsibility. Not so much anymore. The more stupid our fellow citizens get, the more stupid we get as a nation. Stupid people beget stupid politicians who in turn beget stupid laws. The smartest people don't get elected, the most popular people do. And who elects people because in their minds they are popular? Stupid people of course.

While I am quite aware that the terms stupid and dumb are not synonymous, I will use the terms interchangeably here. When I refer to someone being dumb, I am not referring to deaf mute people, most of whom are smarter than stupid people. The reason for spending so much effort to discuss stupid people is that they cause the bulk of misery and suffering in America. Let's go directly for the jugular, stupid politicians. By now, you have heard the Biden Administration, and many localities, are considering mask mandates again. They want to convince you to don those idiotic paper masks again for the sake of your safety and well-being as well as that of the general public. In spite of all the evidence to the contrary, that's what they want for you. Keep in mind that last time around, California geniuses Nancy Pelosi and Gavin Newsome were photographed without them when they thought no cameras were around.

Stupid politicians, and those who support them, will tell you that the most important crisis facing America today is climate change. If those same people had been right 25 years ago, New York City would be underwater now. With estimates of tens of thousands of illegal aliens crossing our Southern border every day, for whom our citizens must provide housing, sustenance and medical care, to them this is less important than climate change. With China threatening to invade Taiwan, which will likely create a world war, to them this is less important than climate change. With a national debt of nearly \$32 trillion dollars, and growing by a billion dollars every eight hours, to them this is less important than climate change. With over 96,000 deaths per year in America due to drug overdose, to them that is less important than climate change. Does this sound like something from smart people?

Before we move forward, I would like to make this proclamation. If you are a Democrat, you are just plain dumb, and it is questionable if you are sane! So, let's call you what you are -a Dumbocrat. The absurdity mentioned above is at least 99% Dumbocrat derived. Who is pushing the transgender crap? Dumbocrats, that's who. Frankly, I think there is a bit of sexual perversion in all of them. Why else would they have such extreme interest and obsession with sexual deviation? Why are they trying to have control over the sexual content of the books and teachings in the K12 schools. It's the homosexual kids they want to protect, not the normal ones. Dumbocrats are enemies to your children!

Dumbocrats are Socialists and Communists. However, very few will openly acknowledge it. Nine current members of the U.S. House of Representatives own up to being Socialist, but there is no difference between them and the other Dumbocrats. Their answers to all of America's problems are to take away your freedoms and your money. Why the Hell would anyone vote for that? Dumb/ stupid people cannot help themselves. They do not have the capacity for independent thought, so they elect other Dumbocrats to do their thinking for them.

So, who are the Dumbocrats? Here are the "symptoms."

- You vote for Democrats.
- You are obsessed with the transgender culture.
- CNN, MSNBC, ABC, CBS, NBC, NYT or WAPO or any combination thereof is your main source of information.
- You think illegal immigration is a good thing.
- You believe climate change is America's biggest problem.
- You believe the more government, the better.
- You believe in redistribution of wealth.
- You believe that race relations have not improved since the 1950's.
- You think George Soros is a good guy.
- You think Joe Biden is doing a great job.
- You think Kamala Harris is ready to step in when Joe "retires."
- (This is just a partial list)

John D. Myers
